- Structural Analysis
- Reinforced Cement Concrete
- Steel Structure
- Construction Material
- Strength of Material
- Earthquake Engineering
- Tunnel Engineering
- Cost Contract Management

RELEVANT EXPERIENCE

Assistant Production Manager

April 2024 – Present

Print Pros Plus, Thunder Bay, ON

Started as a Graphic Designer was able to prove my skills and abilities and work my way up. Although my position title is Assistant there is no Production Manager and I hold all operational responsibilities..

- Led daily production operations, staff scheduling, and workflow coordination to meet tight deadlines and maintain high quality standards
- Managed cross-functional teams and optimized processes to improve efficiency and control costs
- Handled resource allocation, progress tracking, and documentation using MS Office tools
- Resolved operational issues while maintaining strong communication with team members
- Developed strong organizational, time management, and multitasking skills

Civil Engineer

2023

Nawadurga Construction, Nepal

- Developed construction plans, project submissions, estimations, quotations, and quantity take-offs using AutoCAD Civil 3D for infrastructure/commercial projects.
- Managed subcontractor coordination, procurement, scheduling, and tracking; liaised with clients, consultants, and sub-trades to ensure compliance with specifications and resolve issues through troubleshooting, change management, and negotiations.

RELEVANT EXPERIENCE CONTINUED

Civil Engineer

2023

Nawadurga Construction, Nepal (Continued)

- Conducted site supervision, inspections, and coordination of materials/supplies/instructions—supporting efficient project execution and problem-solving in dynamic environments.
- Prepared technical drawings, reports, and documentation in Microsoft Office
- Utilized AutoCAD Civil 3D, Microsoft Project, demonstrating strong organizational, time management, and follow-up practices.

Civil Engineering Intern

2022 – 2023

Nilgiri Khola Hydropower Project (110 MW), Nepal

- Supported project coordination, field supervision, documentation tracking, and compliance monitoring in large-scale infrastructure.
- Monitored rebar works in Powerhouse, Generator Casing.
- Monitored concrete works and reviewed concrete test results.

CORE SKILLS

- Construction Plans & Project Submissions · Estimations & Quotations
- Project Supervision & Coordination · Budgeting & Billings Support
- Occupational Health & Safety
- Subcontractor Management · Procurement · Tracking & Scheduling
- AutoCAD Civil 3D · Microsoft Office (Word, Excel, Outlook) · MS Project · ETABS
- Compliance with Project Specifications · Problem-Solving & Negotiations
- CSA Standards Awareness (A23.1, A23.3)
- Organizational & Time Management Skills · Attention to Detail & Accuracy
- Fast-Paced Environment Adaptability · Engineering/Design Build Experience
